DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "20" has been used to designate both v-belt(page 2, 0011) and grooved pulley(page 2, 0013). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities:

Exemplary of such:

Page 2, 0012, 'a wood dowel' should be replaced with 'the wood dowel'.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Williams.

Art Unit: 1744

Williams discloses a vacuum sweeper having a v-belt with grooves that engages a pulley on a brushroll spindle that has a smooth belt-engaging surface (fig. 1, #34,40, fig. 4, #34, fig. 5, #40).

With respect to claims 2-3, Williams discloses the spindle and pulley being a one-piece member (fig. 1, #40).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lyman discloses a vacuum sweeper having a grooved pulley on the brushroll spindle. Morishita et al. discloses a vacuum sweeper with a smooth pulley on the brushroll spindle and a smooth belt.
